## Sprint Plan 4

05/20/2019

- As a user I want an about page so that I can understand the origins of the information that I am viewing: 6
  - Create text for about page: 2
  - Create UI for about page and beautify it: 4
- As a user I want to be able to apply to jobs that are relevant to my searches: 20
  - Create UI for job listings: 10
  - Manipulate data populate job listings for each tile: 10
- As a user I want to be able to gather information on soft skills, technical skills, and specific programming languages:
  - Filter and differentiate between the various different types of skills: 8
- As a user I would like as much information as possible when looking career statistics: 16
  - Incorporate more job data from the BLS into the main map page: 8
  - Add more preset tiles to give the user an idea of what is out there in the tech industry: 8

Total Points: 50
