Known Bugs:

1. Mobile view does not work.
2. Scraper crashes infrequently.

User Stories for Acceptance Criteria:

1. Sprint 1 User Story 1: As a user I want a nice landing page because I want to immediately see meaningful information presented in a neat manner.
2. Sprint 1 User Story 2: As a user I want data from "Indeed.com" because it is a popular job site and will help me stay informed.
3. Sprint 2 User Story 2: As a user I want clear visuals that represent job data because I want to easily analyze the relationships between skill sets in the tech industry.
4. Sprint 3 User Story 2 // Sprint 4 User Story 2: As a user I want the site to present consistent and accurate data. A bug free experience.
5. Sprint 4 User Story 1: As a user I want an easy to use graphical interface.
