

Sprint 2 Review: JobStats

2/11/19

Actions to stop doing:

- Too much UX Research

Actions to start doing:

- Meeting together in person more and getting to implementing the features

Actions to keep doing:

- Meeting regularly to work together and learning the new technology.

Work completed:

- Learn React

Works not completed:

- Make an about page
- Make a landing page with tile view using React

Work completion rate:

- For this sprint we planned to completed three user stories which we estimated would take 45 work hours. This sprint lasted 10 days during which we were fully able to complete one user story for a total number of 20 hours worked. This brings the daily rate of user story completion to to 0.22 and the daily rate of hours worked to 2.
