Sprint 2 Review: JobStats

5/06/19

Actions to stop doing:

- Focusing too much on styling UI for components

Actions to start doing:

- Start focusing on the functionality of the features more so than the UI

Actions to keep doing:

- Meeting regularly to work together finish implementing all the features.

Work completed:

- Custom skills page layout, google maps integration, salary information, cost of living information.

Works not completed:

- Finishing exact UI implementation of the maps and the custom skills page.

Work completion rate:

- For this sprint we planned to complete two user stories which we estimated would take 109 work hours. This sprint lasted 14 days during which we were fully able to complete two full user stories for a total number of 109 hours worked. This brings the daily rate of user story completion to to 0.12 and the daily rate of hours worked to 7.80.
