Sprint 1 Review: JobStats

4/22/19

Actions to stop doing:

- Stop worrying too much about where components will go, simply design them to be reusable.

Actions to start doing:

- Working on the UI for skills if LinkedIn partnership does not work out. Work on UI for map view.

Actions to keep doing:

- Meeting regularly to work together finish implementing all the features.

Work completed:

- UI redesign, LinkedIn authorization and sign in, integrated google maps react component.

Works not completed:

- Recommend skills to users and have the tiles be saveable
- Integrate BLS information into our website

Work completion rate:

- For this sprint we planned to complete two user stories which we estimated would take 50 work hours. This sprint lasted 14 days during which we were fully able to complete one full user story for a total number of 37 hours worked. This brings the daily rate of user story completion to to 0.37 and the daily rate of hours worked to 2.64.
