Sprint Plan 3

05/06/2019

- As a user I want an about page so that I can understand the origins of the information that I am viewing: 6
    - Create text for about page: 2
    - Create UI for about page and beautify it: 4
- As a user I would like to see job listings pertaining to the tile I am viewing so that I can apply to specific jobs: 11
    - Create a UI component that displays job listings: 6
    - Filter job listings so that only relevant listings are displayed: 5
- As a user I want more preset tiles that are relevant to the current day tech industry: 17
    - Determine which tiles are most desirable: 8
    - Add the tiles to the page: 4
    - Determine whitelist / blacklist of terms: 5
- As a user I would like to manually select skills and filters to populate graphs: 8
    - Create manual query page: 6
    - Add manual query to home page tiles: 2

Total Points: 42
