Sprint Plan 4

Sprint 4:

User Story 1:

- As a user I want an easy to use graphical user interface
  - Task 1: Implement a search bar (6)
  - Task 2: Be able to search keywords and filters at the same time (6)
  - Task 3: Save previous search terms in search boxes to build on searches (5)
  - Task 4: Clicking on the logo should return me to home page (3)

User Story 2:

- As a user I want a bug free experience
  - Task 1: Ensure search terms with spaces populate the appropriate graph (6)
  - Task 2: Ensure search terms with spaces appropriately save in the search box (6)
  - Task 3: Ensure that percent values that display on the graph are correct (5)
