JobStats User Manual

- Go to Jobstats.net

- Click on a tile that you wish to view information about

- Toggle between different forms of data visualization such as

    - Bar Graph

    - Line Graph

    - List

    - Heat Map

- Use the heat map to view salary versus cost of living information

- Apply to job listings pertaining to the tile you clicked on

- Create a custom tile with your own filters that pertain to your specific needs

- Use the manual page to quickly view how certain skills, companies, locations, and job titles are trending

- The about page provides a description of where all the data is coming from and what exactly JobStats aims to do.
